EXCEL SMS

EXCEL SCHOOL MANAGEMENT SOFTWARE

The only educational ERP you need for totally automating your entire campus.

www.excelsms.in

FEATURES:

Class Setup and Management:

Allows entering all basic information of class and sections of the school so that software is synchronized to the present structure of your school.

Student Admission Module

This module simplifies admission procedure of the school and helps to admit a student directly in school without billing enquiry form. It is quick and easy to use.

Fees Management:

Allows creating and entering all basic information of the school fees so that software gets synchronized present fee structure. Helps the office staff in managing monthly/termly school fee and quickly generate receipts.

Attendance Management:

Manage daily student attendance, sending auto alerts (sms & mobile app notification) to parents of late/absent students. Maintain attendance record with reporting which is easy and time saving. Biometric devices can be used for automatic attendance for students & staffs

SMS & Alerts :

Dedicated support system that sends alerts for students, class/student wise. Features include prompt notifications for: attendance, marks, exam timetable, homework, Information circular, mobile app notification.

Time Table Management

This module is a well-organized class management system. It is an effective solution to the problem of adjusting timetables in simple way. Timetable module checks the class duration, faculty availability and voids conflicts in timings. It makes the creation of timetable easy.

Transport Management:

Engages transport facilities provided by school or by private contractors by collecting data of: Transport vehicle, busdriver, conductor/bus in-charge, bus fee management and collection. Mapping of bus routes, pickup points, bus allocation to student/staff. Tracking the bus through app

Parent mobile App

Parents can log in, view their child's exam grades, attendance, complaints, and leave record through Mobile app.

Online Schol Diary:

Parents will be kept updated about their wards' performance and related information like remarks, attendance, complaints and over view. It aims at reducing the gap between parents, teachers and school management.

User Management and Admin Control Panel:

It helps School Administrator to provide access permissions to the principal, vice principal, accountant, clerk, teachers & other Staff of the school for better management and control.

Subject Setup and Management

Enter all required basic information of subjects in school so that software easily gets synchronized to your present subject structure of the school.

Examination Management:

Create exams, exam time-table, exam portions, mark sheet generation, alerts and final reports. Send sms alerts for all above events.

Notice Board:

School notices and announcements can be posted by school administrator to keep parents informed about upcoming events, news, exams and other activities of the school.

Automatic Time Table Management:

Generates class time table of student & staff. Logarithm creates automatically assigned, period wise subject time tables for teachers.

Library Management:

This module keeps track of allotment of books to the students and stock management of books.

Inventory Management:

Auditing support by maintaining store inventory of school. Access to store keeper to keep track of inventory items with issue register, stock alerts, stock value etc.
